

JavaScript Advance

PAMODA ANGELO KONARA
AUGUST 2024

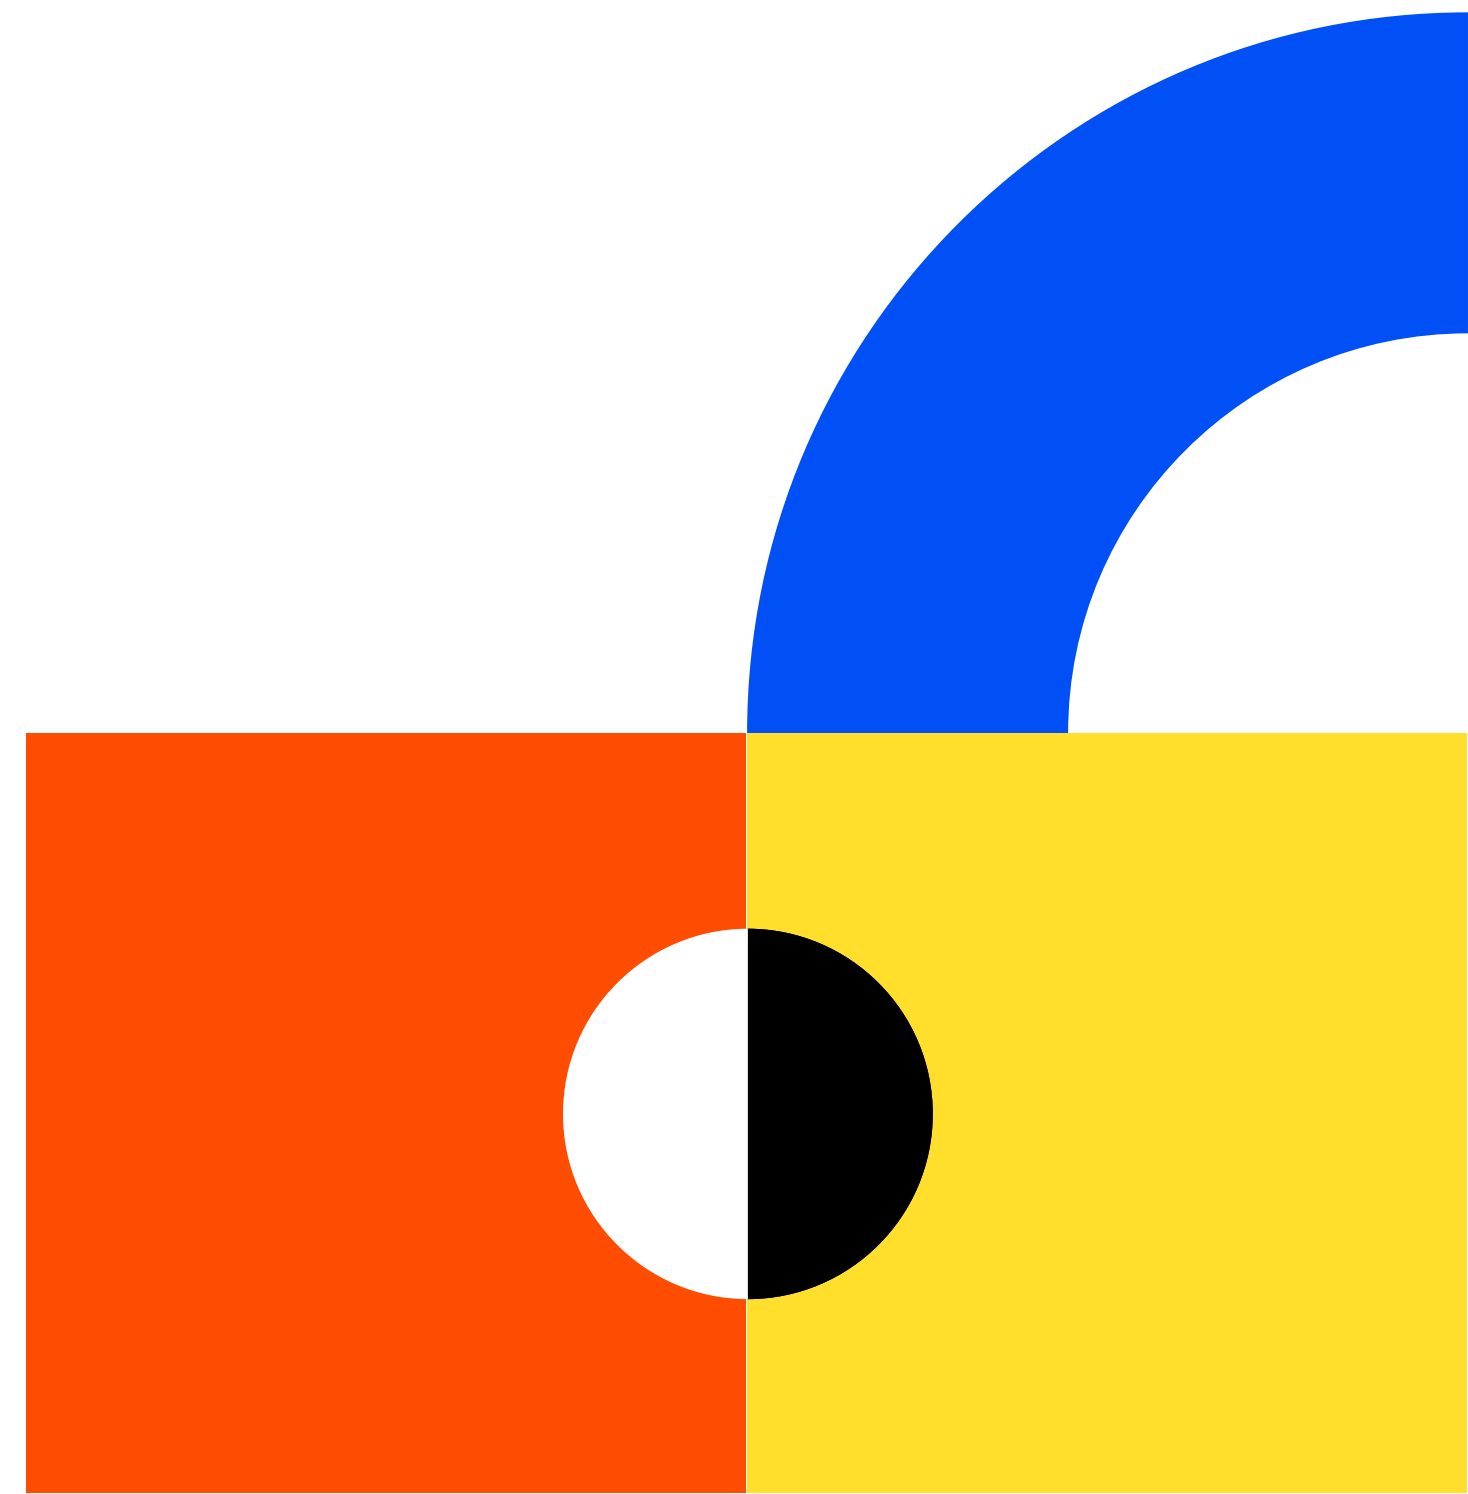

01

As soon as the user enter the site, the website will show the 10 latest news and with a button the user can load 10 more and so on.

Using DOM manipulation with JavaScript by connecting all the id from html to JavaScript. Fetching new stories it shows the name that is the link that bring to the site, the date and hour when it has been published.

With the help of Css I've changed color and font style by changing font and coloring everything in shades of blue.

Grazie!
